THE KITCHEN
IS THE HEART
OF THE HOME

A young child, wearing a white chef's hat and a white apron over a blue and white striped shirt, is captured in a moment of pure joy. The child's mouth is wide open in a laugh or shout, and their hands are clapping. A fine mist of white powder, likely flour, is suspended in the air around the child, creating a magical, dreamlike atmosphere. In the foreground, a wooden table holds a bowl of white powder and a plate of golden-brown cookies. To the right, a white ceramic bowl sits on the table. The background is dark and out of focus, with a hint of a window with white lace curtains on the right side.

IMPORTANT INFORMATION

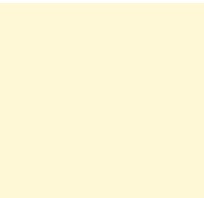

Paints naturally age over time particularly when exposed to UV rays from sunlight. Where an addition to a kitchen is required, a freshly painted product may not exactly match products which have been in situation for a period of time.

It must be noted that under normal varying conditions of temperature and humidity, solid wood products will naturally expand and contract. This may result in hairline cracks of the paint finish at construction joints, which may be particularly noticeable on products painted with a flat finish.

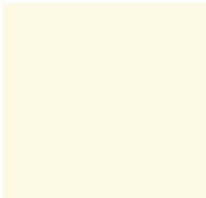

Please note: Colours are reproduced as close as possible to the actual product however colour variations will occur due to the limitations of the printing process.
